Appl. No.: 10/677,981 Reply to Office Action of: 09/09/2004

Amendments to the Specification:

Please delete the paragraph(s) starting on page 1, line 2 through line 6 and replace with the following replacement paragraph(s):

The invention relates to an acoustic structure applicable conjunction with a speaker, which structure in dustproof and waterproof according to the IP 67 class of IEC/EN 60529 standard the $\circ \mathtt{f}$ protection International Electrotechnical Commission, in the body of a device, two discrete, comprises, interconnected cavities for speaker means and isolating The invention also relates to a device employing the acoustic structure.

The International Electrotechnical Commission (IEC) is responsible for worldwide body_ authoritative _____ the the standards in global consensus developing___ The IEC is dedicated to the electrotechnical field. harmonization and voluntary adoption of these standards, supporting the transfer of electrotechnology, assisting certification and promoting international trade.

Since 1906, the IEC has served the world's electrical industry, developing international standards to promote quality, safety, performance, reproducibility, and environmental compatibility of materials, products, and systems. It has also published standards for the electronics and telecommunications industries. The IEC's present membership of 51 countries includes most major trading nations.

The IEC standards are widely adopted as the basis of national or regional electrotechnical standards, and are often quoted in manufacturers' specifications and by users when calling for tenders. Over 2000 standards cover virtually every topic of electrotechnology from acoustics, to medical devices, to insulating materials, to aircraft, to nuclear instruments.
